PROFESSIONAL SUMMARY

Full Stack Developer with over 2 years of experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Holds a Bachelor of Science in Information Sciences (Information Technology Option) from Moi University. Experienced in developing RESTful APIs, JWT-based authentication systems, responsive user interfaces, and database-driven applications. Skilled in integrating frontend and backend services to deliver secure, efficient, and production-ready solutions, with a strong focus on clean architecture, problem-solving, and creating technology solutions that provide practical value to users and organizations.

CAREER OBJECTIVE

To apply my software development and problem-solving skills in a challenging IT role where I can contribute to organizational growth while advancing my professional experience. I am seeking opportunities in full-stack development where I can collaborate with teams and build practical, efficient solutions that deliver real value to users and the organization.

TECHNICAL SKILLS

Languages: JavaScript, HTML5, CSS3

Frontend: React.js, Tailwind CSS,

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication

Databases: MongoDB, PostgreSQL

Tools: Git, GitHub, Postman, Vercel, Render, Netlify, AWS, Cloudflare

Concepts: API Security, MVC Architecture, Database Design, Debugging

PROFESSIONAL EXPERIENCE

ICT Intern – Kenya National Treasury, Nairobi

August 2025 – October 2025

- Supported troubleshooting and maintenance of ICT systems and office applications.
- Assisted in configuring software, resolving technical issues, and maintaining system operations.
- Worked with teams to support day-to-day technical requests and improve efficiency.
- Documented ICT processes and maintained structured technical records.

PROJECT EXPERIENCE

MoiHub – Multi-Service Student Platform

- Built a full-stack platform connecting students to rentals, food delivery, transport, and campus services.
- Developed scalable RESTful APIs using Node.js and Express.js with JWT authentication.
- Designed modular React.js interfaces and structured MongoDB database models.
- Focused on maintainable architecture, scalability, and user experience.

Moilearn – Learning Management Platform

- Developed backend services and API endpoints for learning content delivery and user management.
- Worked with PostgreSQL and MongoDB for structured data handling.
- Tested and validated APIs using Postman.
- Built responsive frontend interfaces with React.js.

Lumire – E-Commerce Mobile Application

- Developed a cross-platform e-commerce mobile application for skincare products using React Native and Expo.
- Implemented secure JWT authentication and Role-Based Access Control (RBAC) for users and administrators.
- Built user profile management and product browsing functionalities.
- Developed an admin dashboard for managing products, users, and platform operations.
- Integrated RESTful APIs and optimized the application for performance, scalability, and user experience.

EDUCATION

Moi University – Bachelor of Science in Information Sciences

Graduated: December 2025

CERTIFICATIONS

- AI Foundations – Oracle
- Responsive Web Design – FreeCodeCamp
- Frontend Development Libraries – FreeCodeCamp

ACHIEVEMENTS

- 2nd Place – Hack for Safety Hackathon
- Participant – AfriHack AI
- Greentech Hackathon - Strathmore University– Sustainability Solution

REFEREE

Shadrack Metto – Lecturer, Moi University
