PROFESSIONAL SUMMARY

Fullstack Developer with hands-on experience building scalable web applications and backend systems using Node.js, Express.js, React.js, MongoDB, PostgreSQL, and MySQL. Experienced in developing RESTful APIs, implementing authentication systems, testing APIs with Postman, and managing frontend-backend integration across full-stack applications. Skilled in debugging, database design, API security, and writing clean, maintainable code. Strong problem-solving and collaboration abilities with a keen interest in backend engineering and scalable architecture

TECHNICAL SKILLS

Backend Development

- Node.js
- Express.js
- RESTful API Development
- API Security & Authentication
- JWT Authentication
- MVC Architecture
- API Integration
- API Testing

Databases

- MongoDB
- PostgreSQL
- MySQL

API Tools and Testing

- Postman
- REST Client Testing
- API Debugging

Frontend Technologies

- React.js
- Javascript
- HTML
- CSS3
- Tailwind CSS

Tools and Platforms

- Git and GitHub
- Vercel
- Render
- Netlify
- Cloudflare
- AWS (Basic Deployment & Cloud Services)

PROFESSIONAL EXPERIENCE

ICT Intern

The Kenya National Treasury

August 2025 – October 2025 | Nairobi

Supported troubleshooting and maintenance of ICT systems and applications.

Assisted in system configuration, software installation, and technical support.

Collaborated with teams to resolve technical issues and maintain operational efficiency.

Participated in documentation of ICT processes and system support activities.

Worked in a professional team environment handling day-to-day technical operations.

PROJECT EXPERIENCE

MoiHub – Multi-Service Student Platform for Moi University

Developed scalable RESTful APIs using Node.js and Express.js.

Implemented JWT authentication and role-based access control for secure user management.

Designed and managed MongoDB database structures for handling multiple services and user interactions.

Integrated backend services with frontend applications to support smooth user experiences.

Collaborated on system architecture, debugging, and API optimization.

Moilearn – Learning Platform for Moi University

Built backend services and REST APIs using Node.js and Express.js.

Developed secure authentication workflows and API endpoints for learning management features.

Worked with MongoDB and PostgreSQL for data storage and management.

Tested and validated API endpoints using Postman.

Improved application scalability, maintainability, and backend performance

EDUCATION

Moi University

Bachelor of Science in Information Sciences

Graduated: December 2025

CERTIFICATIONS

AI Foundations – Oracle

Responsive Web Design – FreeCodeCamp

Frontend Development Libraries – FreeCodeCamp

ACHIEVEMENTS

2nd Place – Hack for Safety Hackathon

Participant – AfriHack AI

Greentech Hackathon – Sustainability Solution
